SYMBOLS

The following standard symbols are used in this publication:

..	figures not available
...	figures not appropriate or not applicable
-	nil or zero
--	amount too small to be expressed
x	confidential
e	Alberta Bureau of Statistics preliminary estimates
f	first estimate(s) based on a limited number of returns
p	preliminary figure(s)
r	revised
M	thousand(s)
Sqs.	squares
MW.h	megawatt hours
GW.h	gigawatt hours

Note: Components may not add to total due to rounding.

PREFACE

The Alberta Statistical Review, Quarterly provides statistical tables containing monthly or quarterly data on the economy of Alberta. The publication is organized into the following ten sections: Summary of Major Economic Indicators, Population, Labour Force and Related Statistics, Price Indexes, Energy and Natural Resources, Construction, Manufacturing, Agriculture, Trade and Commerce and Travel. The majority of the tables present data at the provincial level while others present data for communities or compare the economy of Alberta with that of Canada and other Provinces.

This publication was previously published every month, it is now published quarterly. Users requiring tables on a monthly basis may contact the Data Dissemination Unit or access all tables by computer from the University of Alberta. To access the tables, sign-on into an APL workspace and type ")LOAD NMCC.ABS". The workspace contains an index and interactive functions for printing all the tables. Detailed step by step instructions for retrieving tables are available in the appendix. Also, the numbers from each table are stored as numerical matrices allowing for manipulation by the user. Specific questions or requests for documentation should be directed to the Data Dissemination Unit.

NOTE: THESE BASE-WEIGHTED PRICE INDEXES RELATE TO THE SELLING PRICES OF NEW HOUSES CONSTRUCTED BY LARGE AND MEDIUM VOLUME BUILDERS IN METROPOLITAN AREAS. THE PRICES USED EACH MONTH ARE THOSE PERTAINING TO CONTRACTS BETWEEN BUYER AND SELLER SIGNED AT THAT TIME.

IT SHOULD BE NOTED THAT THE AVERAGES ARE NOT COMPARABLE BETWEEN CITIES SINCE THEY REFLECT DIFFERENT MIXES OF SINGLE, SEMI-DETACHED AND ROW HOUSING.

APPENDIX

APPENDIX

The following is a step by step procedure to access any or all the tables in this book by computer from the University of Alberta.

Preliminary Information

- Users need access to a computer terminal and a computer account with the University of Alberta.
- It is assumed that the user is familiar with the MTS(Michigan Terminal System) environment at the University of Alberta.
- Retrieval of tables may be done interactively or by batch.

Steps:

1. Get into the APL language by typing:
   RUN *APL T=30

2. Load the workspace that contains the tables by typing:
)LOAD NMCC.ABS

3. The workspace will automatically execute a function that tells you how to retrieve tables, when the tables were last updated and what the current issue of the publication is.

4. All the user functions in this workspace are interactive. Just answer the questions to retrieve your information.

5. To find out what information is available type:
   INDEX

6. To print a range of tables or a specific table type:
   PRINT

APPENDIX
(continued)

Steps:

7. To print all the tables type PRINT as above and you will be shown how to run a batch job to produce all the tables.

8. When you have finished retrieving all the information and want to return to the MTS environment type:

```
)OFF
```
